

Christopher Stucke

FULL STACK SOFTWARE ENGINEER

cmstucke@gmail.com > 937-479-3999 > LinkedIn > Github > Portfolio > Bridgewater, VA

SKILLS: JavaScript, Node, Express, React, Redux, SQL, Git, HTML, CSS, AWS, Socket.io

PROJECT EXPERIENCE

SPOOKY - ECOMMERCE >> Flask, SQLAlchemy, React, Redux, AWS

[Github](#) > [Live](#)

-

BISCORD - SOCIAL MEDIA >> Flask, SQLAlchemy, React, Redux, AWS, Socket.io

[Github](#) > [Live](#)

- Integrated Socket.io and Redux stores to track changes of state of remount messages from all users in real time.
- Completed a signup procedure that integrates AWS to allow an optional profile picture to every user that defaults to an abbreviation of their username if not submitted with that data field.
- Organized a dashboard for the user to navigate the available features while presented with a signal, unified interface.

MEETUP EMULATION - SOCIAL MEDIA >> Express, Sequelize, React, Redux

[Github](#) > [Live](#)

- Established a database in Sequelize utilizing one-to-many relationships for a User's Group to have as many events as they have created for it.
-
